Synopsis

If you picked up this book because you wrecked your vehicle and you're wondering what to do next or you've wrecked your vehicle, had it repaired, and you're wondering if it was truly repaired correctly and is safe to drive, we wrote this book just for you. You have a right to be concerned. We've been in the industry for 35 years, we've repaired over 50 thousand vehicles all were repaired utilizing manufacturers repair guidelines. We have seen and experienced the abuses that have occurred in the vehicle repair industry over the last 25 years. Dramatic changes have happened to us, our industry, and especially our customers and made us realize that writing this book was absolutely necessary. Our mission is, as always been, to make sure that our customers drive away from our shop with peace of mind knowing that their vehicle has been repaired correctly and is safe to drive. In addition, our mission is to ensure that if our customer's vehicle has suffered diminished value as a result of the wreck, that they have the proper documentation to be compensated for their vehicle's loss in value. We want you to have that assurance too. So we wrote this book for you. ---Tim and Steve Waldren
