Concepts In Nonsurgical Periodontal Therapy (Rp-Dental Assisting Procedures)

Synopsis

This new book presents up-to-date concepts in periodontal therapy by teaching dental hygienists procedures on how to perform a thorough periodontal assessment in an efficient manner. The text is organized into four major sections that present phases of therapy including assessment, planning, implementation, and evaluation. A fifth section includes applications for the practice setting, as well as career development. Case studies and job placement information encourage readers to use critical thinking and problem solving skills based on practical experience. Supplements Instructor's Manual 0-8273-8518-8
