Customer Reviews

Four stars because I don't like chemistry. But that's only one chapter. I got this book for my Bio class in college. It looks interesting and I'm looking forward to learning more. This loose leaf edition comes in a 3 ring binder and is cheaper than the others. But it is heavy!

Was exactly what I needed. Just had to get the access code directly from my school instead of this one.

Daughter needed this for college class. Just as described. Saved us money!
