Prealgebra & Introductory Algebra (4th Edition)

Synopsis

Elayn Martin-Gay's developmental math program is motivated by her firm belief that every student can succeed. Martin-Gay's focus on the student shapes her clear, accessible writing, inspires her constant pedagogical innovations, and contributes to the popularity and effectiveness of her video resources. This revision of Martin-Gay's algebra series continues her focus on students and what they need to be successful. **Note:** You are purchasing a standalone product; MyMathLab does not come packaged with this content. Book Information

Series: Prealgebra & Introductory Algebra

Paperback: 1344 pages

Publisher: Pearson; 4 edition (March 1, 2014)

Language: English

ISBN-10: 032195579X

ISBN-13: 978-0321955791

Product Dimensions: 8.6 x 2 x 10.8 inches

Shipping Weight: 5.2 pounds (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars [See all reviews](#) (12 customer reviews)

Best Sellers Rank: #26,365 in Books (See Top 100 in Books) #79 in [Books > Textbooks > Science & Mathematics > Mathematics > Algebra & Trigonometry](#) #90 in [Books > Science & Math > Mathematics > Pure Mathematics > Algebra](#) #7924 in [Books > Reference](#)

Customer Reviews

This book was so helpful. There were some material my professor didn't have the time to go over so I watched the videos are from the author herself, and she makes the concepts crystal clear! I would highly recommend this book to anyone starting college who has a fear of math. This helps! Also ensure you know the material before moving on to a next chapter because everything is progressive. If you don't get the concept of one it will affect the others. Worth the money!

Great book. Rented it for my Math class in college and so far it's been very helpful. Glad I decided to rent it. Much cheaper than purchasing a new one.

The book was in excellent condition. I could not have been happier with the product

Good quality but shipping was delayed even though these were in stock.

Meet expectations. I would recommend ordering from this company.

Great book easy to understand the examples
