The tricks here, especially the card tricks, are very good and very classic, and (amazingly) to not require advanced manipulation techniques. A beginner can learn all of them in a few days by following Micah's step-by-step instructions. This is -not- one of the usual run of close-up magic books which seem to randomly mix trivial self-working tricks and professional-level slights, usually with far from sufficient explanation and no orderly plan for learning. This book won't make you an expert, but is definitely the very best one to get if you'd like to learn the basics. I hope it stays in print forever!

Well I must be honest. Micah is a personal friend of mine. He is also one of the most accomplished card magician's I know. Now you don't have to take me at my word, ask some of the greats like Herb Zarrow, creator of the Zarrow shuffle, or Meir Yedid or Richard Robinson, Just to name a few. Now as a magician myself I speak from the technical view here, Micah started this book when he was 12. His dad help put him in touch with the people he needed to to consult with on the book. He did and they did. What you have here is not Micah at his most accomplished but a guide, to kids or adults, who would like a simple concise and informative instruction on magic. The margin notes on many pages give incites into the history of magic or a routine and some wonderful antidotes. I

suggest you get this book if you want to learn some exciting ways to entertain your friends and family. Enjoy, I have two.

This book teaches professional quality trick in easy, understandable directions. I have seen the author perform these trick to live audiences with impressive results. If you only buy one magic book this should be it.

It was the first book about magic in my magic library. It is really perfect for beginners, specially the cards chapter.
