UNCOVERED: What REALLY Happens After The Storm, Flood, Earthquake Or Fire

Synopsis

If you own property, this book is a must read! If you think buying insurance means you're covered, think again! In the new book, UNCOVERED: What REALLY Happens After The Storm, Flood, Earthquake or Fire, Mark Goldwich - public adjuster and insurance expert - reveals the behind-the-scene secrets of what really goes on when you file an insurance claim. Straightforward and easy to read - the most interesting and enjoyable book on insurance you will EVER read. You will be enlightened, then shocked and angry, and finally, EMPOWERED! Mark provides details from decades of experience in the industry, having worked for one of the largest insurance companies in the country, and now as a consumer advocate. These details can save you countless hours of frustration, and many thousands of dollars of your hard-earned money. As you will read, when policyholders lose at the hands of those they pay to insure them when things go wrong, it is big, BIG money! See what really happens. Get UNCOVERED today!

Customer Reviews

There is some good info in this book, however, some of the chapters drone on and are very

redundant. In addition, the book seems to be more of an advertising pamphlet for the Authors business rather than an independent work on the topic. Which there is nothing wrong with, however, it does get a bit "salesman" at times. There are definitely good tips in this book about how to approach your insurance company about a claim and also how to handle the insurance companies adjuster during the process. I feel the book is worth a read and is a worthy reference book during a claim, however, just be prepared for some "plugging" from the Authors business.

Wish book would give more details or specifics on dealing with insurance adjusters. For example, when insured is denied, what are the steps one should take against insurance company. Good book for general outline on fighting insurance company.

Anybody facing an insurance claim, after a disaster, is apt to settle with the insurance company for less than they deserve. Indeed , the may settle for less than they, need to do the repair. Understand the system much better, and get this book.

I could feel myself getting angrier as I read this book. If any of these tactics by insurance companies are true, get thee to a public adjuster! I appreciate the idea of overworked adjusters for insurance companies after a calamity, but this is a business and you better know the rules of how the game is played. After all, it's your money. Buy this book and read it well.
